Lake Zurich, IL 60047

Dear Mr. Meyer:

Re: Tuf-Tite 20" Copolymer Polypropylene Tank Riser Pan
Part Number 20-RISP
Onsite Sewage Systems

My staff has completed the review of the Tuf-Tite 20" riser pan for suitability for septic tank access openings in Indiana.

Based on that review, we have no objection to the use of the Tuf-Tite 20" riser pan for access openings in septic tanks, with the following conditions:

1. That the size of the opening is adequate for servicing the tank and the septic tank outlet filter.
2. That any changes in design of this riser be submitted to this office for review.

If you have any questions, please do not hesitate to contact Alan Dunn of my staff at 317-233-7179 or adunn@isdh.in.gov.

Sincerely,

Michael Mettler, REHS, Director
