St. Joseph County Septic Installers

RE: Revised list of approved tanks and distribution boxes for use in St. Joseph County.

Dear Installers,

After December 31, 2007 the Health Department will be allowing only approved septic tanks, dose tanks, and distribution boxes to be installed in St. Joseph County. Attached is a list of the manufacturers and their respective tanks and distribution boxes that are approved for use in our county.

As of the date of this letter, the only tanks/d-boxes approved for use after December 31, 2007 are the ones listed. This list is not fixed, it may be modified as we receive information from manufacturers.

Additionally, please note that we will allow the use of plastic d-boxes. Both the State Department of Health and the Health Department prefer concrete d-boxes but we will allow plastic d-boxes by those of you that choose to use them. If you use them, please take special precautions to ensure that you backfill around them carefully and that all headers stay level after installation.

If you have any questions or concerns, please contact Matt Longfellow @ 245-6721.

Sincerely,

Marc E. Nelson
Environmental Health Manager

Cc: 3.2.2.3

APPROVED TANKS AND DISTRIBUTION BOXES AS OF NOVEMBER 30, 2007*
