GMP #73

MEMORANDUM

TO: District Directors
Environmental Health Managers
Environmental Health Supervisors
Environmental Health Specialists

FROM:  Gary L. Hagy, Assistant Director
Division of Onsite Sewage and Water Services

SUBJECT: Tuf-Tite Distribution Boxes
Onsite - Product Approval

This office originally issued the attached correspondence in 1991, granting approval of Tuf-Tite's distribution box. I am reissuing them as a GMP. Please note that while the original literature included with Don Alexander's May 29, 1991-memorandum showed only a nine-hole distribution box, this approval also applies to their seven-hole box, riser and lid. I have attached copies of their literature for the seven-hole box, riser and lid.

If you have any questions, please contact either Roger Cooley or myself at (804) 786-1750.
